

COVER POOLS®
THE WORLD'S FINEST POOL COVERS™

COVER-POOLS LETS YOU FOCUS ON FUN

The backyard swimming pool: there are so many great things about it. It's a wonderful gathering place that provides endless fun and entertainment for family and friends. It's great for exercise and relaxation. But the real benefit of the backyard swimming pool is the lifelong memories it creates.

A Cover-Pools® Save-T® automatic pool cover is the best way to safeguard friends and family and protect your investment, ensuring your pool will remain the source of fun and enjoyment it was intended to be. Your Cover-Pools cover acts as a "horizontal fence" for your pool, preventing access by children, pets, and uninvited visitors. It's a safety barrier that no pool should be without.

— — — — — *safety, convenience, and savings*

Your Cover-Pools cover acts as a “horizontal fence” for your pool, preventing access by children and pets.

Spend time swimming, not cleaning.

It is intended that people should walk on the pool cover only in an emergency.

Saves energy, adds heat.

A Cover-Pools cover dramatically reduces heating costs and extends your swimming season by acting as a giant solar collector.

Saves water and chemicals.

By reducing evaporation, your Cover-Pools cover cuts water loss and reduces the use of chemicals.

Saves cleaning.

Keep dirt, leaves, and debris out by simply keeping your pool covered.

Saves pool equipment, extends pool life.

With a covered pool, you keep the heat in and the dirt and debris out. Heaters and other pool equipment work less and last longer.

Saves money.

By saving heat, chemicals, cleaning and extending equipment life, your Cover-Pools cover quickly pays for itself. You can save up to 70% on operating costs—a great return on your investment.

Saves lives.

Cover-Pools pool covers are independently certified to exceed the requirements of the American Society for Testing and Materials (ASTM F1346-91), which sets safety standards for pool covers.

Find out for yourself what delighted pool owners all over the world have already discovered—our Save-T automatic pool cover is the finest, safest, and easiest-to-use pool cover you can buy. So, kick back, relax and enjoy all the benefits of pool ownership. At Cover-Pools, we've got you covered.

The Cover-Pools® Save-T® automatic cover. One cover, four seasons.

Your Cover-Pools cover is all it takes for year-round pool protection.

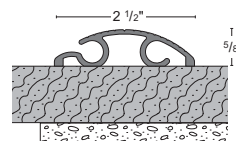

KEEP YOUR POOL ON TRACK and BEAUTIFUL

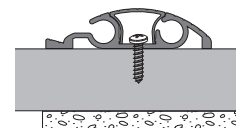

Low-profile Universal track

Universal track system

Universal track can cover existing pools of virtually any shape or construction. Just give us enough deck room to run the low-profile tracks parallel to one another on opposite sides of the pool and we can put a cover on almost anything.

Standard Universal track

SnapTop™ Universal track

Universal track mounts securely to the pool deck and can be painted to coordinate with the deck.

Premium-grade wheel assembly

SnapTop glider

Universal track system: Opens or closes in under a minute.

— — — — — *track systems, bench*

Pool with Universal track and custom redwood bench

Deck-mounted mechanism

When the mechanism is mounted on the deck surface, it can be covered simply with fiberglass ends or the Cover-Pools® Everlast™ bench. The bench kit offers a convenient, durable, and low-maintenance way to cover your mechanism.

You can also create your own bench design with our bench frames and materials supplied locally by your dealer or an independent contractor.

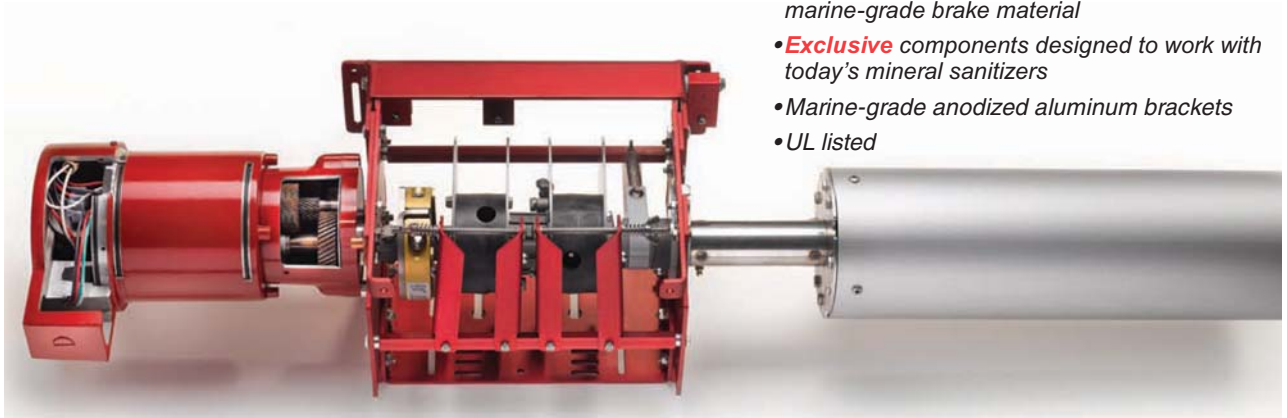

Fiberglass ends

Everlast bench

PiCk YOUR POWER

- **Exclusive** 3/4 hp waterproof submersible motor
- **Exclusive** slip-clutch design with industrial marine-grade brake material
- **Exclusive** components designed to work with today's mineral sanitizers
- Marine-grade anodized aluminum brackets
- UL listed

The driving force

The driving force behind every Save-T® cover system is our state-of-the-art mechanism, proof that nothing but the best goes into every one of our covers. The high-grade stainless-steel and anodized-aluminum mechanism is specifically suited to the pool environment and contributes to smooth operation and overall longevity of the system.

Cover-Pools® electric system

Our standard electric drive system has an advanced 3/4 hp, high-torque, waterproof motor made exclusively for Cover-Pools. The electric motor comes with your choice of either a slip clutch or an auto-shutoff with amp limiter to protect the cover and the mechanism. The system is UL listed.

Step-Saver® manual reel cover

The Step-Saver is an economical alternative to the automatic cover, offering the same benefits at about half the price. It's a manual cover that's convenient enough for daily use.

To cover the pool, hold the rope attached to the leading edge and pull the cover across the pool. To uncover the pool, turn the crank handle. Most manual covers require two-person operation, but in some instances, one person can operate the Step-Saver system.

Upgrade to an automatic system

The Step-Saver system uses the same track, fabric and other components as the automatic system, except without a motor. You can easily upgrade to an automatic system by adding a Save-T power package later if desired.

Automation

Operating the Save-T® automatic cover is as easy as turning a key or pressing a button. For safety, the cover stops as soon as the control is released. Press the button and the cover glides across the pool in under a minute. You can even coordinate water features, lights, and other accessories to work with your automatic system.

CoverLink™ digital control

The code-accessed digital control system allows you to program up to four codes to create convenient and secure access to the system. With the wireless version, you have endless options for mounting the touch pad within view of the pool.

Accessory board with auto-shutoff

The accessory board controls operation of water features, fiberoptics, alarms, etc., in conjunction with opening and closing the cover.

Key switch

Turn the key to cover or uncover the pool. To maintain a secure system, simply remove the key after you've covered the pool.

Auto-shutoff control

The auto-shutoff control stops the cover automatically when it is fully opened or closed.

Quality in a variety of colors

Cover-Pools® extended life premium-grade fabric is the product of 50 years of research and experience. Reinforced with a strong polyester mesh for strength and tear resistance, this high-quality vinyl-resin formulation provides maximum weather resistance, ultraviolet resistance, mildew resistance, chemical-extraction resistance, and dimensional stability. Through repeated testing, we've found that our exclusive fabric formula provides maximum durability in any swimming pool environment and is the absolute best available.

Custom Covers

With the Designer Series™ cover, your family crest, logo, name, landscape design, or any other graphic is custom applied to the surface of your cover.

Choose from standard colors shown below. More colors are available in special-order vinyl.
Please see actual fabric sample when making color choice. Colors may vary.

THE WORLD'S FINEST POOL COVERS™

What makes Cover-Pools the world's finest pool cover company?

 ***The most experienced automatic pool cover company in the world***

When our founder, Joe Lamb, invented and patented the automatic pool cover, he also launched a new industry. Since 1962, Cover-Pools has created over 125,000 safer pools around the world.

 ***The most options for customization***

Every pool is special. That's why we make your cover system to your custom specifications. Cover-Pools offers a wealth of options to blend your cover system into your outdoor living area. This means that you choose the right combination of safety, convenience, value, and beauty.

 ***The most experienced and extensive network of dealers***

With knowledgeable dealers in fifty states and over fifty countries, Cover-Pools covers the world. Cover-Pools holds annual APSP-accredited seminars for intensive dealer training and also provides in-field dealer support.

 ***The most time-proven warranties in the industry***

At Cover-Pools, we believe that the best warranties are backed by the most reliable companies. We have fifty years of experience to support our warranties. You can stand on our reputation.®

 ***The most responsive customer-service team in the industry***

Our customers constantly tell us that it's the people of Cover-Pools that make their experience so wonderful. When you call Cover-Pools, you reach a live person to provide you with knowledgeable solutions. Every employee at Cover-Pools contributes to customer service—from the production staff to the president, you know you're in capable hands.

 ***The most innovative engineering team***

To our design team, it's the little things that make Cover-Pools systems so reliable. Always on the leading edge of innovation, our engineers use the latest technology to ensure you receive The World's Finest Pool Cover.

All illustrations and specifications contained in this brochure are based on the latest product information available at the time of printing. Cover-Pools reserves the right to make changes at any time without notice, in colors, materials, equipment, specifications and models.

Save-T systems and parts are available through Cover-Pools Incorporated in select areas and through independent dealers/distributors worldwide. No dealer/distributor is an employee, agent or representative of Cover-Pools Incorporated.
